Bartlett Police Offer Cold Weather Crime Prevention Suggestions

With unseasonably cold winter weather expected to last for the next few weeks, Bartlett Police Department would like to offer some crime prevention suggestions to deter residents from becoming a victim of a motor vehicle theft. Residents are discouraged from warming up their vehicles by leaving them running and unattended in their open garages or driveways. Bartlett Police would also like to remind residents to always lock up their vehicles and remove all valuable items. During the past few months, Bartlett Police investigated several motor vehicle thefts where suspects stole unlocked vehicles with the keys left in the ignition. The Bartlett Police Department requests residents to immediately report any suspicious activity by immediately dialing 9-1-1.
